Whiting Aluminium Dry Freight Door Model: C4 Lite

Roller Shutter Truck Doors

The Whiting C4 Lite is a lightweight yet robust dry freight shutter door, offering a quiet and smooth operation with many benefits.

Features

- Integrated extruded continuous aluminium hinge configuration has been tested beyond 90,000 cycles, equal to 10 years life in normal operation
- Bolt on roller retainers for easy change of rollers to minimise downtime and maintenance costs
- One man can easily assemble/disassemble panels using clip together continuous hinge design
- Independent twin stainless steel cables fitted to every shutter door (Lloyds certified)
- Twin spring balancer provides added reliability and independent lifting capabilities for each individual cable
- Nominal 50mm diameter nylon rollers provides a quieter operation and longer life (twice the life of a 25mm diameter roller)
- Approximately 15% lighter than similar aluminium continuous hinge wooden doors
- Extruded 18mm thick aluminium panels with a centrally located reinforcement rib – 18mm thick for maximum strength and resistance to internal impact
- Spring loaded lock catch provides consistent lock tension and maximum security
- Long-life and durable side, top and bottom seals
- Noise reducing Zytel roller holders and adjustable top closure brackets for easy installation and better top sealing
- Track fixing holes pre-punched
- Extruded aluminium panels are polyester powder coated white RAL 9010 on the outside (natural aluminium on the inside) standard
- Fully recyclable panels
